EDUCATION

Bachelor Science of Information
Technology

Government College
University Faisalabad

2020-2024 (Present)

PROFILE

With 1/3 year/months of dedicated experience in software application development, I specialize in leveraging the Laravel framework to build robust and efficient solutions. Proficient in relational databases like MySQL, I excel in designing and managing relational databases to ensure optimal performance and scalability. My expertise extends to crafting RESTful APIs for seamless communication between various components of an application, along with adept integration of third-party APIs to enhance functionality. Additionally, I possess strong command over JavaScript, PHP, and Bootstrap, enabling me to create dynamic and visually appealing user interfaces. Well-versed in version control systems such as GitHub and Bitbucket, I ensure efficient collaboration and code management throughout the development lifecycle. With a passion for innovation and a commitment to quality, I am poised to deliver impactful solutions that meet and exceed client expectations.

WORK EXPERIENCE

Junior Laravel Developer (current job)

Viion Technology 2023-Dec

- Make REST-full APIs' using Laravel Framework and collaborate with the front-end developers team to integrate
- Also create an admin dashboard using HTML, CSS, and Bootstrap to manage data of software application
- Design relational database logic and also maintain the Redundancy of DB tables
- Maintain the old projects that are created in the Laravel PHP framework.
- I have experience with the deployment of projects

Working as Freelancer

As a seasoned freelancer, I've successfully delivered 4 to 5 projects utilizing the Laravel framework, specializing in solutions tailored for restaurant management and visa service agencies. My expertise in Laravel allows me to craft custom applications that cater specifically to the unique needs of these industries, ensuring seamless operations and enhanced user experiences. With a keen understanding of the intricacies involved, I adeptly integrate features such as online reservations, order management systems, and payment gateways for restaurants, while streamlining visa application processes and document management for agencies. Each project reflects my dedication to delivering high-quality, scalable solutions that empower businesses to thrive in today's competitive landscape. With a proven track record of client satisfaction and a passion for innovation, I continue to be a reliable partner in driving success for businesses in the hospitality and immigration sectors.
